

SUPERArmor FRP Ballistic Panel

The Ultimate Panel for Ballistic and Fragmentation Protection

*Back Face
UL 752 Level III Test Shot*

Features and Benefits

- UL 752 Level III Approved
- Light Weight
- Easy to Install
- Corrosion Resistant

SUPERArmor FRP Ballistic Panels are designed for protection in various government and commercial applications. SUPERArmor panels are available in 4' x 8' sheets, are approximately 1/2" thick and weigh approximately 160 lbs. These panels are light weight, easily installed using standard hand tools and painted to improve aesthetics.

Typical Applications:

- Asset Hardening (walls and roof)
- Court Room Protection
- Banks
- Safe Rooms
- Storm Shelters

Test Results

SuperArmor was tested in accordance with the specification requirements for ballistic panels and comply with UL 752 Level III ballistic panel specifications*. Test results are available upon request.
